Chase Woodford / designer / developer

chasewoodford.com • github.com/chasewoodford • linkedin.com/in/chasewoodford

Full-stack developer and engineering lead with 15+ years of experience building web, desktop, and mobile applications, most of it at Verilogue, growing with the company from early-stage startup to part of Publicis Health within Publicis Groupe. Rooted in front-end development, with design and user experience as core strengths. Leads developers and owns features end to end, from requirements and design through full-stack development, QA, demos, and production deployment. Uses agentic AI tools daily to move faster, work across the stack, and help the team do the same.

Verilogue / employment

Associate Director, Technology
Sept 2020 – Present

- Upgraded critical infrastructure, including migrating Bootstrap 4 to 5, Webpack 3 to 5, and converting multiple enterprise web applications from JSP templates to Thymeleaf, enhancing application scalability and maintainability
- Productionalized the Insagic HealthStyles Reporting Tool, a React application with a MUI CSS frontend, increasing platform access by over 400% and boosting uptime by 200%
- Redesigned the UI/UX of Verilogue's Recorder mobile app and refactored the iOS and Android codebases, significantly improving usability
- Developed and supported the second iteration of the LogueWorks platform, streamlining processes and expanding functionality, contributing to a +70% increase in operational efficiency
- Integrated Box and Asana APIs into RevealMR and helped implement LionLogin SAML integration for secure authentication, improving workflow efficiency
- Leveraged generative AI services, including Amazon Transcribe, HealthScribe, Comprehend Medical, and Azure OpenAI, to deliver AI-driven solutions that reduced costs, transcription turnaround time, and research analysis time
- Designed and developed a chatbot interface for RevealMR using WebSockets, vector embeddings, retrieval-augmented generation (RAG), and advanced prompt engineering techniques, marking one of the application’s first integrations of AI-driven features
- Managed direct reports and multiple outsourced programming teams

Manager, Technology
Jan 2012 — Sept 2020

- Led UI/UX design and front-end development of all web, desktop, and mobile applications, including: verilogue.com and related marketing properties; Verilogue Recorder, a mobile app used by our physicians; carecoach.com and patient mobile app (retired); revealmr.com, a client-facing content management system; logueworks.com, an automated workflow service; and sales training iPad and desktop applications
- Contributed to the design, development, and maintenance of scalable SQL databases and cloud infrastructure on Amazon Web Services (AWS)
- Produced promotional content for internal and external marketing efforts, including audio/video teasers, e-mail campaigns, microsites, landing pages, and social media

Manager, Field Services
Jul 2006 — Jan 2012

- Managed transcription/translation team of 12 company vendors and ~150 individuals
- Ensured 99.9% accuracy and HIPAA compliance of a database containing 110,000+ interactions, spanning 12 international markets, 138 disease states and various multimedia formats
- Met data collection requirements and deadlines for projects sold to over 150 brand teams, including all top 20 of the world's largest pharmaceutical companies
- Managed annual throughput from low of 1,975 interactions per year to 16,080, a 714% increase in capacity
- Reduced transcript processing turn-around time from high of 41 days to low of 3 days, a 92.7% improvement in efficiency
- Negotiated cost of transcription down from $1.80/audio minute to $0.40/audio minute, a 78% reduction in cost per interaction

Proficiencies / skills

- AWS, Bootstrap, CSS, Git, Hibernate*, HTML, Java/JEE*, JavaScript, jQuery, MVC, npm, PHP, Python*, React*, Ruby*, Sass, Spring*, SQL, SVN, Swift*, Tailwind, Thymeleaf, TypeScript*, Vue*, webpack
- WordPress, Joomla!
- Adobe Creative Cloud
- Figma, Balsamiq
- Sony Creative Software
- Agile with Scrum, JIRA, Asana, GitHub/GitLab
- Microsoft Office Suite, Visio, SharePoint
- Marketo, HubSpot, Salesforce Marketing Cloud
- Prompt Engineering, RAG strategies, LLM frameworks, multi-agent workflows*

* Denotes working proficiency

Recent Projects / experience

- HealthStyles Reporting Tool (React app)
- Verilogue Recorder (mobile app)
- Smart Beat (iOS app)
- Town Trekkers (multimedia)
- AJ Originals (website)
- LogueWorks (Java application)
- RevealMR (Java application)
- Calm Focus (website)

Temple Univ. / education

- BA in Advertising, Sociology Minor (2007)
- Graduated summa cum laude
- Member, Student Government
- Brother, Alpha Tau Omega Fraternity
